DETAILED ACTION

1. The indicated allowability of claims 21 and 22 is withdrawn in view of the newly discovered reference(s) to Drake, Jr. (US Patent 6,643,002). As a result, the finality of the rejection of the last Office action is withdrawn. Rejections based on the newly cited reference(s) follow.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

3. Claims 21 and 22 are rejected under 35 U.S.C. 102(e) as being anticipated by Drake, Jr. (US Patent 6,643,002).

Drake, Jr. discloses a system comprising a laser line generator 102, a viewing source 104 such as a camera (col. 7, lines 40-43) positioned at an angle of about $\pm 45^\circ$

Art Unit: 3726

relative to the laser line generator (col. 6, lines 11-12, col. 7, lines 13-20 and figs. 4, 5 and 7), and an object 100 disposed downstream of the laser generator (figs. 4 and 5).

Applicant should note that object 100 is structurally equivalent to the recited stuffing cone as there is no structure defining the stuffing cone. Furthermore the system of Drake, Jr. could be used for disposing a substrate in a housing since it is used for alignment purposes.

Allowable Subject Matter

4. Claims 1-15 and 17-20 are allowed.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
